

# VETERANS MARCH WITH POMP AND MARTIAL TREAD

Street Pageant of the Grand Army in Chicago Today  
Marks an Epoch in the History of  
the Patriotic Organization.

## MORE THAN 40,000 OLD SOLDIERS IN LINE

Over Half a Million Spectators on the Line of Parade  
Cheer the Boys in Blue Wildly—Carry  
Fifty Tattered Battle Flags.

Chicago, Aug. 28.—[Special Telegram]—Martial music and the steady tread of veterans had the attention of the great crowd of visitors in Chicago today. The greatest parade in the history of the Grand Army of the Republic took place at 10 o'clock.

Representatives of the Army of the Potomac touched shoulders with the blue-clad veterans who marched and fought in the Army of the Cumberland. Hardy followers of Sherman, who tramped from Atlanta to the sea, kept step with men who chased Jubal Early through the Shenandoah Valley and faced the remnants of Lee's great army at Appomattox. Veterans who participated in Banks' Red River campaign, affiliated with comrades who tasted of the glory of the victory of Gettysburg.

It was the crowning event in the history of the great organization of soldiers who survived the battles of the civil war.

**Grandest Parade of All**

More veterans, notwithstanding the age of the members of the Grand Army of the Republic, joined in the march than ever was expected by the most sanguine of the survivors of the organization. Veterans from every state in the union are in the city to meet their former comrades, and 7,000 posts of the Grand Army had representatives in the column, which formed in Michigan avenue at 10 o'clock and commenced its course through decorated streets to the Court of Honor, where Commander in Chief Albert D. Shaw, accompanied by Mayor Carter H. Harrison, the governors of several states, and other distinguished guests reviewed it.

The route of the parade was lined with half a million of spectators who wildly cheered the veterans as they passed.

**Route of Parade Short**

The line of march is short because of the age of the men who will participate in the parade. Formed at State and Randolph streets, it dispersed in the Court of Honor, after passing over a line extending over twenty-seven blocks.

**Message From Miles**

The announcement that the President would be represented in the encampment was made in a telegram sent by General Miles to Executive Director William H. Harper late yesterday afternoon.

General Miles arrived in Chicago this morning at 8:45 on the Pennsylvania road.

Governor Tanner, who is in the West, was represented by Acting Governor Walter Warder. Senator Warder formerly tendered to Commander Shaw yesterday the welcome of the state to the Grand Army.

**The Guests of Honor**

The guests of honor in the review of the parade are General Miles, the Duke of Arcos, Miss Clara Barton, President of the International Red Cross society, Acting Governor Warder and Mayor Harrison. Preceding the starting of

## THE NAME OF OLD GLORY.

[Read by the author, James Whitcomb Riley, at the Iron Brigade  
Reunion in Chicago, last night.]

Old Glory! say, who,  
By the ships and the crew,  
And the long, blended ranks of the gray and the blue,  
Who gave you, Old Glory the name that you bear  
With such pride everywhere  
As you cast yourself free through the rapturous air  
And leap out full length, as we're wanting you to?  
Who gave you that name, with the ring of the same,  
And the honor and fame so becoming to you?  
Your stripes stroked in ripples of white and of red,  
With your stars at their glittering best overhead,  
By day and by night  
Their dearest light  
Laughing down from their little square heaven of blue!  
Who gave you the name of Old Glory? Say, who—  
Who gave you the name of Old Glory?  
The old banner lifted, and faltering then  
In vague lips and whispers fell silent again.

Old Glory, the story we're wanting to hear  
Is what the plain facts of your christening were,  
For your name—just to hear it.  
Repeat it and cheer it, 's a targ to the spirit!  
As salt is a tear—  
And seeing you fly and the boys marching by,  
There's a shout in the throat and a blur in the eye  
And an aching to live for you always—or die,  
If dying, we will keep you waving on high.  
And so, by our love  
For you floating above,  
And the stars of the wars and the sorrows thereof,  
Who gave you the name of Old Glory, and why  
Are we thrilled at the name of Old Glory?  
Then the old banner leaped, like a sail in the blast,  
And fluttered an audible answer at last—  
And it spake with a shake of the voice, and it said:  
By the driven snow-white and the living blood-red  
Of my bars, and their heaven of stars overhead;  
By the symbol conjoined of them all, skyward cast,  
As I float from the steeple, or flap at the mast,  
Or droop o'er the sod where the long grasses nod,  
My name is as old as the glory of God.  
So I came by the name of Old Glory.

Paris, Aug. 28.—A special dispatch to Le Siecle from St. Petersburg says:

"It is persistently rumored in St. Petersburg that the Russian government has received a dispatch asserting that after a fierce battle inside Pekin the allies retreated, losing one thousand eight hundred men, mostly Russians.

"It is further said that the Chinese occupy fortified positions, from which they are bombarding the allies in a murderous manner."

**Confirms the Rumor**

London, Aug. 28.—[Special Cablegram]—The rumor via Paris and St. Petersburg that the allied army had sustained a severe defeat and had been driven back from Pekin, is credited here.

The Times says it has information that a desperate battle was fought and that the allies retreated to the western gates. There are no details.

**Expect News of An Attack.**

London, Aug. 28.—The news of an attack on the Chinese forces assembling at Nam Yen, outside Pekin, is anxiously awaited, according to a Japanese telegram from Taku. A combined detachment of Russian and Japanese cavalry was to have encountered this hostile body last Saturday. The result of the action can hardly be expected to be made known for some days, as the field telegraph laid down by the allies on the advance from Tien-Tsin is not working.

The Japanese are more successful than the rest of the combined contingent in getting through runners, probably because of their superior knowledge of the Chinese character and language, but even General Yamaguchi's message published at Tokyo yesterday was dispatched from Pekin as long ago as Aug. 18.

**Imperial Family Escaped.**

The Japanese general's telegram gives no hope of the capture of the imperial family; indeed, it would seem that his cavalry force abandoned the chase on reaching the village of Mansan, where its commander learned that the Empress and the emperor, under General Ma's escort, had started for the West.

**Situation is Under Control**

Washington, Aug. 28.—Alarming reports that the allied army in Pekin is threatened with destruction by great forces of Chinese troops which are marching towards the capital city, both from the south and east, have caused no alarm in Washington.

Dispatches received from Minister Conger and General Chaffee go to show that the situation in Pekin is absolutely under the control of the foreign troops; that reinforcements have been arriving, and the army is sufficiently strong to not only withstand attacks by any army the orientals can mobilize, but would unquestionably give the attacking party a crushing defeat.

The situation at Pekin from a military standpoint is quite satisfactory. There is only the fear that the allied army may not get the rations it needs, inasmuch as Pekin is practically isolated because the caravans that carry in the food stuffs were halted and have not operated for several weeks. Food must be brought from Tien-Tsin and the seaboard.

**Allies Resume the Aggressive.**

London, Aug. 28.—The allies, resuming aggressive operations, have taken the district west of Pekin. This statement, based on Chinese authority, is cabled from Shanghai. From the same place comes the further statement that Li Hung Chang has wired the empress dowager at Hsian-Fu requesting the arrest of Prince Tuan and the disarmament of the Boxers, in order to give him an opening for negotiations with the powers. The illuminations projected at Shanghai in celebration of the relief of Pekin have been abandoned, lest they should cause a native outbreak.

"Evidence has been received here," says the Shanghai correspondent of the Standard, "going to show that Gen. Yung Lu was the real author of the anti-foreign outbreak, the empress dowager, Prince Tuan and the others all having been persuaded by him to take an extreme attitude, while he stood aside and waited developments."

**The Situation at Amoy.**

American refugee missionaries in Amoy, according to the Hongkong correspondent of the Daily Mail, are anxious to return to the interior; but the United States consul has forbidden them to do so, and urges them to go to the Philippines or to return to America. Shanghai advices to the Daily News say that consular opinion there looks upon Japanese action in the landing of troops at Amoy, despite the protests of the consuls, as similar to that of Russia at Newchwang, the whole indicating a tendency to a partition of the empire.

**Concentration of Boxers.**

Berlin, Aug. 28.—A dispatch received here from Tien-Tsin says large bodies of Boxers are concentrating fifteen miles northeast of Twang-Sun. It is probable the dispatch refers to Yang-Tsun, on the Pei-Ho river, about sixteen miles from Tientsin, on the way to Pekin.

**Chaffee and Conger Report.**

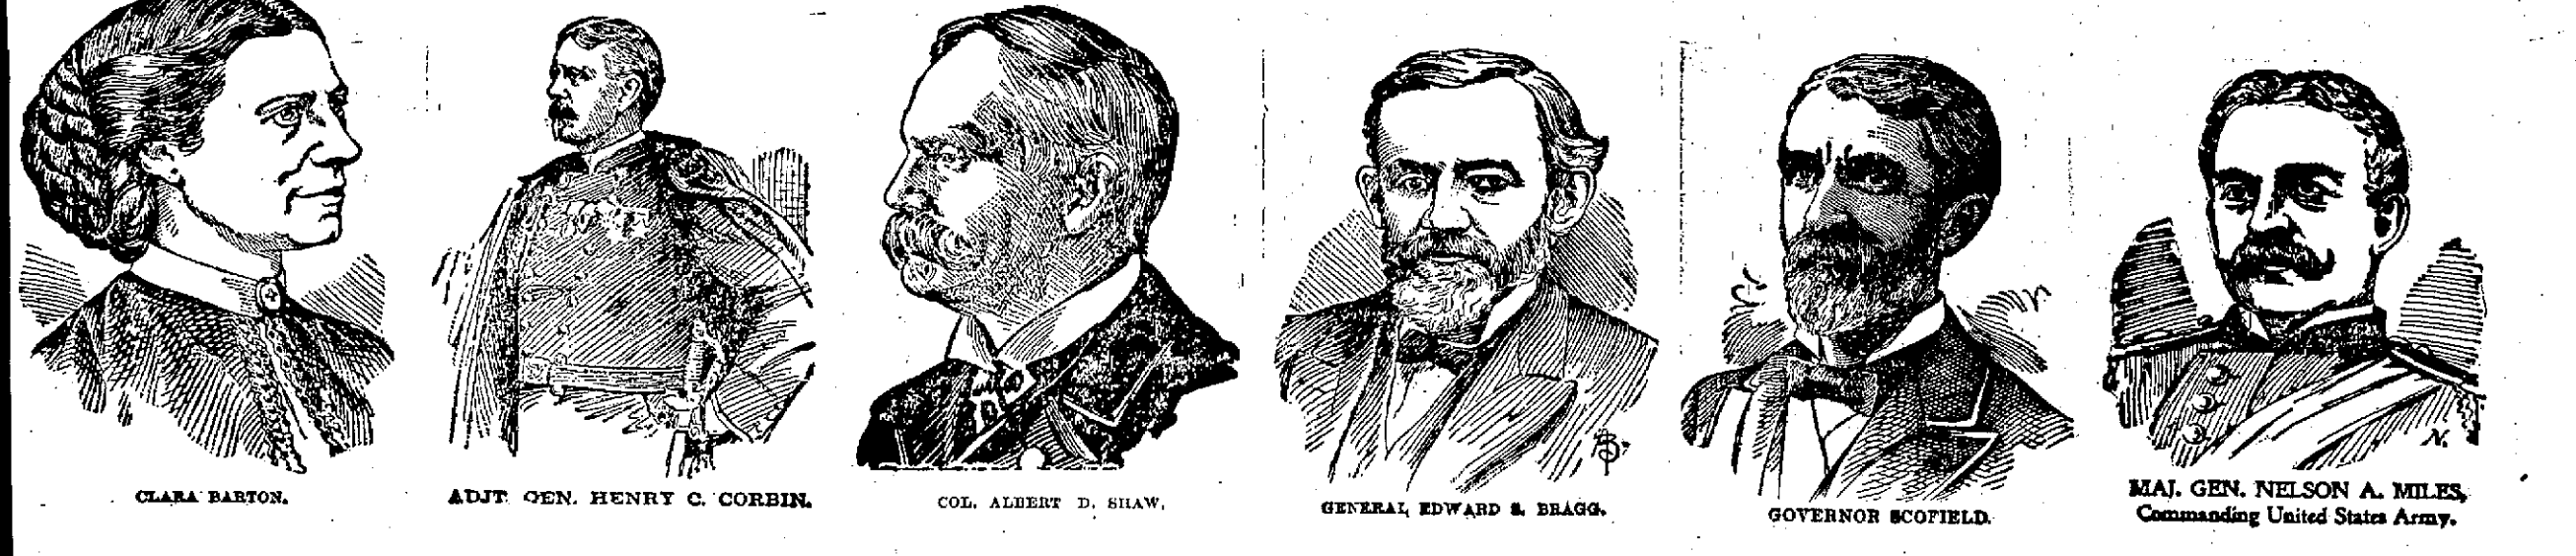

Washington, Aug. 28.—The war department is without information indicating a change in the military situation in China. One dispatch was received from Gen. Chaffee, but it did not relate in any way to the conditions in Pekin. The information from Minister Conger that 2,000 Germans had reached the capital relieved the minds of those officials who felt uneasy over the reports that a Chinese army was marching north to recapture the capital city, as many officers here are of the opinion that the allies will be able to hold out indefinitely against any assault on the city, and predict heavy loss to the Chinese should they attempt to recapture Pekin.

**WAR IS NOT DECLARED.**

**Chefoo Report About Russia, Germany and Japan.**

London, Aug. 28.—There is absolutely no truth in the dispatch from Chefoo of Aug. 24 saying it was rumored there "on good authority" that Russia, Ger-

### September Atlantic

September is the most popular month for camping excursions, because it combines the last month of trout fishing with the first month of deer hunting in most of the great preserves. It is therefore appropriate that the September number of Scribner's should have an out door flavor to many of its articles, and that the illustrations should suggest sport and adventure in many out-of-the-way places. Frederic Irland has become widely known to the readers of Scribner's by his canoeing and hunting articles. This year he writes, "In the Gameland Our Fathers Lost"—a hunting excursion in British Columbia, in the Frazer river region, where Rocky Mountain sheep and wild goats abound, and deer and caribou are so plentiful that it is hardly sport to kill them. John Fox, Jr., the Kentucky novelist, describes an amusing fishing trip in the mountains of Kentucky, entitled "To the Breaks of Sandy." Walter A. Wyckoff, the author of "The Workers," has published nothing since that very successful book. In this number of the magazine he begins an account of his recent journey to the far north with one of the Peary relief expeditions. These articles are entitled "With Arctic Highlanders." In fiction this number includes a political story, "A Daughter of the State," by Charles Warren, and continues "Tommy and Grizel," Mr. Barrie's great serial.

### September Atlantic.

Judge Francis Lowell opens the September Atlantic with "The American Boss," his rise and source of power. Brooks Adams follows with "Russia's Interest in China," a very present question ably discussed. Mrs. Candee, pictures the wonders of Oklahoma, and Canon Rawnsley sketches Ober-Ammergau. Mrs. Foote begins "The Prodigal," a brilliant short serial. A notable group of great general interest comprises Paul More's "Feud,"—a story of Tolstoi; Margaret Muller's "Gerhart Hauptmann," on the recent German Renaissance; Canon Everett's "James Martineau; Ogden's "The Press and Foreign News," in praise of old methods; Trent's "Old Southern Newspaper," with appetizing extracts; and Fernald's dissection of a modern kindergarden child. Reviews of Art Education for Men, Recent American Fiction, and Books on Japan; attractive short stories; brilliant poems and a Lively Contributors' Club also appear.

Perfect womanhood depends on perfect health. Nature's rarest gift of physical beauty comes to all who use Rocky Mountain Tea. 35c. Smith's Pharmacy, Kodak agents.

## EXAMINATION IN THE CIVIL SERVICE

Sept. 26 Next There Will Be An Examination For Postoffice Clerks or Carriers.

The United States Civil Service Commission announces that on September 26, 1900, an examination will be held in this city for the positions of clerk and carrier in the postoffice service.

The examination is held for the reason that the post office department has stated that as all offices where no substitute force is maintained such a force will be appointed as the result of this examination, so that whenever vacancies occur in the regular course there will be no delay in filling the same. It is the intention of the department as far as possible to establish a substitute force every office equal to about 25 per cent of the number of regular employees.

The nature of the examination is a test of practical, general intelligence and of adaptability in post office work. The age limitations for this examination are as follows:

Clerk, not less than 18 years.

Carrier, between 21 and 40 years.

Applicants for male clerk and carrier must have the medical certificate in form 101 executed. Applicants for carrier must be at least 5 feet 4 inches in height and weigh not less than 125 pounds. Female applicants are not required to have this certificate executed.

This examination offers an excellent opportunity for entering the Federal service to bright, energetic young persons who are not afraid of hard work, and the commission hopes that a sufficient number of intelligent, active persons will present themselves for this examination. It may be stated that there is a wide field for advancement upon merit in the Federal service than in many private employments, not only by promotion in the same office, but by transfer to other parts of the service.

This examination is open to all citizens of the United States who may desire to enter the service, and who comply with the requirements. All such persons are invited to apply, but attention is invited to the fact that from those certified the Department usually selects for appointment eligibles who are residents of the district in which the vacancies exist. Applicants will be examined, graded, and certified with entire impartiality and wholly without regard to any consideration save their ability as shown by the grade attained in the examination.

For application blank [Form 101], full instructions, specimen examination questions, and information relative to the duties and salaries of the different positions, and as to whether there are any existing vacancies in this office, application should be made to the undersigned.

Applications should be promptly filed with the secretary of the local board, and inquiry should be made of him as to the date set for the close of the receipt of application.

A. T. KEMMERT,  
Secretary Postal Board.

## THROUGH A GLASS.

**IVORY SOAP** is a skin soap. On one square inch of your hand there are 2,800 pores. On the whole body you have 2,381,284 of these little cavities to look after. Every one of these openings must be kept clear, or the impurities of the body can not pass out. Now, to cleanse the pores, you need a fine, pure soap. Scientists who speak not from opinion, but from scientific analyses, urge the use of Ivory Soap. 99 1/4 per cent. pure.

## Boer General Is Captured.

London, Aug. 28.—The war office has received the following dispatch from Lord Roberts:

"The Boers have been beaten back by Bruce Hamilton at Winburg. Gen. Olivier has been captured."

The text of Lord Roberts' dispatch announcing the capture of Gen. Olivier shows that three of Olivier's sons also were captured in the attack which the Boers made from three sides on Winburg. Lord Roberts adds: "that Gen. Olivier was 'the moving spirit among the Boers in the southeast portion of the Orange colony during the war.'"

## Excess of Girls in Colorado.

Denver, Col., Aug. 28.—The state board of health, under the direction of Secretary Tyler, is preparing a tabulation of deaths and the causes leading to these deaths. These figures show that for the first six months of this year 783 more males than females died. According to the school census of Arapahoe county the male children of school age number 18,354, while the females number 19,515, or 661 more than the males. The other counties of the state establish the same general proportion, which gives Colorado many more girls than boys.

## Dony Warship Is at Tangier.

Washington, D. C., Aug. 28.—Officials of the state and navy departments deny that an American warship has put in at Tangier in order to compel Morocco to pay an indemnity for the murder of Marcus Essagin, an American, at Fez. No report of the arrival of an American warship has reached the navy department. It is presumed the vessel said to be there is the Massachusetts state nautical school ship Enterprise.

## Gen. Sampson Returns.

San Francisco, Aug. 28.—Gen. Archibald J. Sampson, United States minister to Ecuador, has arrived here after three years' residence at Quito. He says that he has just concluded a reciprocity commercial treaty with the Ecuadorian government of decided advantage to both countries and of special interest to California. The export of flour and wine will be especially fostered under the treaty.

Mr. H. P. Hanson, of 103 Pleasant S. engineer, employed at the Janesville Machine Co., says: "Doan's Kidney Pills did me all the good that could be expected and I recommend them to any one who may be troubled with a lame back or any kidney disorder. After procuring them at the People's drug store and taking them I felt better sleep better, my back did not ache like it did, and I did not rise in the morning with a lame and sore back. I suffered from these symptoms for four or five years and I was more than pleased at the results obtained from the use of Doan's Kidney Pills."

THE MAN OF THE HOUR  
A Magnificent Portrait of  
**PRESIDENT**  
**McKINLEY**

Reproduced in Ten Colors from a Late Photograph, for which the President specially sat, at the request of the Publishers.  
(SIZE 14 x 21 INCHES.)

It has been printed for us on heavy plate-paper, in a form suitable for framing, by one of the largest art lithograph houses in America, in the famous French style of color-plate work. Every American family will want one of these hand-some pictures of the President. It must be remembered that this picture is in no sense a cheap chromo, but is an example of the very highest style of illuminated printing. It will be an ornament to any library or drawing-room. Our readers can have the McKinley portrait at what it costs us (namely, ten cents per copy) by merely filling out the coupon below, and sending it to this office at once. There will be such a demand for this portrait that we advise sending orders at once. As many copies as may be desired can be had on one coupon, providing ten cents is sent for each copy. Write name and address plainly, and remit in coin or postage stamps.

## CITIZENS, COPS AND CROOKS

Trempealeau, Wis., August 25—Mayor H. Hoberton at 2 o'clock this morning distinguished himself by grappling with a burglar who was leaving his house by way of a window. The thief was held until the arrival of officers and then placed in jail. He gives his name as Joseph Trent. He will probably be bound over at the preliminary examination tomorrow.

Mayor Hoberton can thank his lucky stars that he doesn't live in Janesville. If the mayor of this town was called upon to hold a burglar until the police came he would have a job on his hands requiring from one to twenty-four hours time. People who calculate to hold burglars until the Janesville officers can be found, should provide themselves with fifty pound bear traps at once. Otherwise there are liable to be many complications. Suppose, for instance, the robber was a large Fitzsimmonsish man bent on Burglary. Bruising or Blood? In this case, the gentleman who was holding him might get his shirt torn in five seconds, while in an hour he could be completely lustrated. If, on the other hand, the burglar was a small, retiring gentleman bent only on securing Buns, Bread, or Biscuits, it would really be too bad to sit on his face—while his feet were locked up in a folding bed—for twenty-four consecutive hours. In either case, therefore, the system is defective. It works a hardship on both the burgling and the burgled. If you can get the officer inside of five minutes, tackle the burglar, but if—as is the case in Janesville—no officer is to be found without wearing out six pairs of bicycle tires; jading one horse; burning out nine telephones; yelling yourself hoarse; turning in fire alarm; and then giving up in disgust—don't tackle Mr. Burglar. Life, in Janesville, is too short to hold burglars "until the police arrive." Better pay the crook's board at some cheap hotel instead of entertaining him for some days under your own vine and fig tree.

Things will not always be so the only powers that we have promised to put on a police force—but at the present there is only one thing to do—give the burglar everything you have and apologize because you have no more. Don't try to hold him. When he once gets into your house you are as much at his mercy, as far as police protection is concerned, as you would be in the Fiji Islands. Just let him rob you; tell the story to the newspapers, and in a day or two the officers will know all about it. Then they'll say "it is too late now; why didn't you report it before? I was at the depot, when the man went away at 3:26 a. m. but didn't know anything had happened, etc."

And what would the burglar holder say in reply?

Nothing, we feel warranted in saying, that would be "fit to print."

Hon. C. G. Conn, of Elkhardt, Indiana, the band instrument manufacturer is tooting his own horn these days, the selection being "Take the Tariff and Money Question Out of Politics." We doubt if the move will be successful,

however, as most people will look upon the Conn proposition with disfavor.

H. H. Grace, of Superior, the candidate for attorney general on the democratic ticket two years ago, is for McKinley now. In concluding a long article setting forth the reasons of his change of belief he says:

He [Bryan] is trying to make an issue and is wrong in the issue he has manufactured. Although I do not agree with the present administration on many matters, it must be conceded that from the commencement of the Spanish war to the present and inclusive of the Chinese complications the new questions have been handled in a conservative and business like manner and in my judgment it is safer to continue the present administration in power than to adopt Mr. Bryan's very peculiar ideas.

The sooner the "Bryan Bohmrich and Blood" subject, as a serious proposition, is dropped, the better. As a light and airy nothing to be dangled with as a piece of pleasantry, it may fill the bill, but as a campaign argument it is as hollow as an empty barrel.

Mr. Mahoney should now place a patent medicine on the market. After the thorough advertising the local lawyer has received, there is no question but what a concoction labeled "Mahoney's Blood Purifier" would "sell like hot cakes."

The Chicago Tribune is naturally somewhat addicted to the blood habit. The Tribune, it will be remembered, was the paper that declared war on Spain some months before Uncle Sam decided to take a hand in the matter.

While the announcement that "the whole tobacco crop is ruined by hail" is viewed with suspicion now-a-days, the expression cannot yet be classed with the "news of the failure of the Michigan peach crop."

Up to the hour of going to press the Wisconsin democracy had inaugurated no policy of wholesale slaughter and there is no indication of a future uprising.

And because of this B. B. B. business, a lot of people have also learned that there is a Janesville on the map of these United States.

The tramp convention stories emanating from Britt, Iowa, were mere brittle fakes. No such convention was held.

Speaking of B—n, B—h and b—d—but the subject is played out.

However, it is still true that "blood is thicker than water."

Subsidy For Ships.  
The first ship subsidy act ever passed in the United States was a Democratic measure. It became a law 55 years ago, and under it some of the finest ships of their day in all the world built in American shipyards were paid several millions of dollars from the national treasury under ante bellum Democratic administrations. Ship subsidies, being favored by Republicans now, are of course opposed by latter day Democrats.

There are 60 different tribes in the Philippines, and the antiexpansionists demand that they all be turned over to Aguinaldo.

Why Adlai Was Nominated.  
Jerry Simpson predicts that the nomination of Mr. Stevenson will give Kansas to the Republicans. It looks as if Adlai was nominated in order to have a good natured person upon whom to blame the unpleasant happenings.

Why Is It There?  
If the 16 to 1 proposition is not an issue, why was it placed in the Kansas City platform? If that plank is dishonest and doesn't mean what it says, what must the public think of the remainder of the structure?

A Better Title.  
At all events Bryan can collect material for another book. But in place of calling it the second battle it would be well to acknowledge defeat as gracefully as possible and call it the lost cause.

Invites Suspicion.  
A political party that puts forth a platform and then tries to explain that it doesn't mean what it says naturally invites the suspicions of the voters.

The Guilty Ones.  
The platform of the Kentucky Democrats makes them accessories after the fact.

Rumor of a Loss of 1,800 Men in Pekin.

(Continued From Page 1.)

midway and Japan had declared war on China and had "Invited Great Britain and the United States to retire" from that country. Inquiries made at St. Petersburg, Berlin and Tokyo show the report is rejected at those capitals as "unworthy of notice."

A dispatch from Taku under date of Sunday, Aug. 26, confirms previous reports that a convoy was being formed at Pekin to conduct, under a strong escort, the allies' wounded and the women and children to Tientsin.

A dispatch from Amoy, China, says: "The Japanese have been landing marines for three days, not only without provocation, but against the protest of the consuls. Accidental destruction of the Japanese Temple by fire was the alleged excuse for their act, but the Amoy officials have proved their ability to preserve perfect order."

"There are 300 marines landing today. The excitement is intense, and thousands of civilians are leaving the city. The officials, with scores of merchants, have visited the American consulate, pleading with the consul to intercede for the withdrawal of the marines; otherwise, they declare, it will be impossible to preserve order. The landing of the marines by the Japanese breaks the agreement of the powers with the viceroys."

Troops Reach San Francisco.

San Francisco, Cal., Aug. 28.—The 2d battalion of the 2d infantry arrived from Fort Thomas, Kentucky, and went into camp at the Presidio. The battalion is composed of headquarters band and 547 men, under command of Col. Augustus W. Corliss. This battalion and two battalions of the 1st infantry will sail for Manila on the Logan Saturday. The transport Westminister, which arrived will immediately be relocated with freight for Manila.

Rulers at Tai Yuen Fu  
Shanghai, Aug. 28.—[Special Cablegram]—The dowager empress and the emperor are reported to be at Tai Yuen Fu, 250 miles south of Pekin.

## WILL HOLD 7,000 CASES OF TOBACCO

SOVERHILL & PORTER TO BUILD  
A MODERN WAREHOUSE.

Janesville Fast Coming Into the Lead  
as the Principal Headquarters for  
the Tobacco Industry in Wisconsin  
—A Number of New Buildings Under  
Contemplation.

A warehouse that will hold seven thousand cases of tobacco, that is lighted by electricity, heated by steam and fitted with all modern appliances for handling leaf tobacco will be built at once on West Milwaukee street by Messrs. Soverhill & Porter.

The lot on which this new warehouse will be built lies just west and adjoining the one recently purchased by the Wisconsin Carriage Co., and extends from Milwaukee street back to the Northwestern tracks. The new warehouse will be different from any warehouse ever built in this city. There will be no basement to the building, everything being above ground, the sorting, handling and packing departments all being on the main floor. The architecture of the building will be something after the style of the old brick building, being but one story high.

Plans for the Building  
The plans call for a building with a frontage of eighty feet on Milwaukee street and extending back one hundred and thirty-two feet, twenty feet high, at the eaves and thirty-five feet high at the peak.

The front will be of solid brick, with wooden sides and rear, covered with iron in imitation of stone. The interior of the building will be divided up into a main storage room, sixty by one hundred and thirty-two feet. A sorting room one hundred feet long by twenty in width, a bundle room sixteen by twenty and a packing room thirty by forty feet.

The main room will be fitted with two movable carriers, running on tracks extending the entire length of the building, with which cases of tobacco can be handled with ease and piled in any part of the building. The roof over this part of the building being high enough to admit cases being piled ten tiers high. The sorting room will be fitted with all the latest appliances, for handling tobacco it will be lighted from above by six large skylights and on the sides by fifteen large double windows making it the best lighted and best ventilated sorting room in the city. The entire main floor will be used for curing tobacco many advantages being claimed for the system over the warehouses that are three and four stories high.

To Be a Model Warehouse  
There will be large sliding doors at each end of the building, and when a crop is brought in the farmer can drive in on to the floor and after weighing on a large set of scales that will be located near the front door, drive to the place where the crop is to be placed and unload, thus doing away with the bother of handling the bundles two or three times. The building will be heated by steam by a pipe from the Wisconsin Carriage Co.'s boiler and will also be lighted by electricity. There will be no fire allowed in the building.

It is the intention of Messrs. Soverhill and Porter to make this a model warehouse in all respects and the building is to be in keeping with the lot on which it is located. The Northwestern railroad company will put in a side track for the joint use of the Wisconsin Carriage Co. and the warehouse.

## INSURANCE MEN TO MEET AT MILWAUKEE

Local Agents Will Attend the National  
Convention to be Held from Aug.  
30 to September 1.

Local fire insurance agents have received invitations to attend the 5th annual convention of the National Association of Local Fire Insurance Agents, which will be held in Milwaukee August 30 and 31 and September 1st.

This will be the largest insurance convention ever held in this country and will be attended by agents from all over the United States. Interesting addresses by prominent company officials and officers of the National association will be made, and brief reports, from each state association will be received showing what has been accomplished and what is being attempted by agents throughout the country.

The visiting agents will be entertained by the Milwaukee agents. On Thursday evening there will be a trolley ride to Whitefish Bay where there will be a concert by Claude's Band and the Lyric Glee club. On Friday evening a "vaudeville smoker" for men only will be given at Schlitz park. O. S. Morse of this city is treasurer of the Wisconsin association. He with some others of the local agents are planning to attend the convention.

## BADGER VETERAN KILLED AT CHICAGO

Norman G. Whitney, 99 Years of Age,  
from Gray Eagle, Run Over  
by a Runaway Horse.

Chicago, Aug. 28.—Rev. Norman G. Whitney, 99 years old, a civil war veteran, residing at Gray Eagle, Wis., was knocked down and trampled upon by a runaway horse at North and Milwaukee avenues yesterday afternoon and received injuries that caused his death two hours later. He died without recovering consciousness.

The accident occurred shortly after 2 o'clock and was witnessed by several hundred persons, who shouted a warning to the veteran just before he was struck by the horse. Before he could get out of harm's way the iron shoes of the horse struck him in the face and he sank to the pavement unconscious.

Found His Double.  
Councilman Charles A. Smith of Logansport received a letter evidently intended for some other person of the same name. The stranger was found at the Barnett hotel and proved to be a traveling man from Syracuse, N. Y.

It developed that the two were born in the same town on the same day and that they bore a close personal resemblance to one another.

Increase Steam Trawlers.  
In the British fisheries a great feature has been the enormous increase in the number of steam trawlers at the expense of sailing vessels. They have increased in the last ten years from 250 to 1,000, and each steam vessel is twice the actual tonnage of the other trawl, which frightens the fish sailing trawlers. It can also use the less than the beam trawl.

## HANNA TO SPEAK IN BADGER STATE

WILL MAKE AN ADDRESS IN  
MILWAUKEE FOR TICKET.

Plans for the Coming of Gov. Roosevelt Have Been Completed—He Will Speak But Once in the State at LaCrosse—H. C. Payne Feels Confident.

Milwaukee, Aug. 28.—Vice Chairman Henry C. Payne of the republican national committee announced before his return to Chicago today that in all probability Senator Mark Hanna would come to Wisconsin to speak during the campaign. Mr. Payne said he expected Mr. Hanna in Chicago within a few days and that arrangements would probably be made for Mr. Hanna to speak in Milwaukee.

Mr. Payne also announced that Gov. Roosevelt would remain as his guest over Sunday, Sept. 9, and that he would proceed from Milwaukee to deliver an address in La Crosse the following day. Mr. Payne said:

Sometime in September.  
It is very likely that Senator Hanna will come to Wisconsin to speak during the campaign. He will come to Chicago about September 7 and 8. I shall invite him to come to Wisconsin to speak. He will make another trip west a little later and that it is likely that on that trip he will take occasion to speak in Wisconsin.

"Senator Hanna has never delivered a speech in Wisconsin, although he has made personal and business friends within the Badger state and he has had business relations with a good many Wisconsin people and much interest will be taken in his appearance here.

Plans for Roosevelt's Trip  
The plans for the coming of Gov. Roosevelt to Wisconsin have already been completed. The governor will speak but once in the state, at La Crosse. He will be my guest on Sunday, Sept. 9, and will proceed on the regular train accompanied by Senator Quarles and Mr. La Follette to La Crosse. It is not expected that he will speak en route. Senator Spooner will be out of the state at that time.

"We are thoroughly satisfied with the conditions of affairs throughout the country. Prosperity has greatly increased the feeling favorable to the republican ticket. The democrats do not prosper in time of prosperity. Their time is that of calamity. They are having a hard time this year making people believe in their peculiar doctrine.

"Baudits, Boxers and Blood."  
Give the democrats a little time and they will turn from the bandits, whom they are supporting in the Philippines, to the Boxers in China. In fact, instead of their slogan's being, for instance, "Bryan, Bohmrich and Blood," it may be "Baudits, Boxers and Blood."

JOHN T. FISH DEAD  
OF HEART TROUBLE  
Well Known Milwaukee Lawyer Passes  
Away At His Home In the  
Cream City.

Milwaukee, Aug. 28.—[Special Telegram]—John T. Fish, the well known lawyer, died today, of heart disease. Mr. Fish has been in poor health for some time, and his death was not a surprise. He had but recently returned from a trip through the Yellowstone Park country, in company with Edward M. Hyzer, who is associated with him in the C. & N. W. Ry. Co.'s legal service. Funeral arrangements have not yet been made.

John T. Fish was born in Hamilton county, N. Y., but began his professional career in Wisconsin being admitted to the bar in Racine for some years. In October, 1887, he was appointed general solicitor for the C. M. & St. P. Ry. Co., holding that position until Feb. 1, 1894. Later he accepted the same position with the C. & N. W. Ry. Co., holding the same until his death.

Mr. Fish was the senior member of the firm of Fish, Cary, Upham & Black. He was one of the best attorneys in the Northwest.

C. S. Jackman received a dispatch from E. M. Hyzer today, announcing Mr. Fish's death.

## NAMES WILSON FOR JURY COMMISSIONER

Judge Dunwiddie today appointed A. O. Wilson of this city as jury commissioner in place of C. L. Valentine, who has resigned.

The commission is now composed of Robert More of Bradford, R. J. Burdge of Beloit and A. O. Wilson of Janesville.

The judge has ordered that the commissioners revise the list from which the circuit court jurors are drawn. Here after not over two hundred names are to be selected and the list is to be revised once a year.

The last jury list had almost five hundred names on it and had not been revised in some time. Considerable trouble was caused when the drawings for those who were to serve as jurors took place, a number whose names were on the lists having died or left the county.

Bids will be received for the mason work on the Soverhill & Porter warehouse to be erected on West Milwaukee street, same to close on Thursday at 5 p. m. Plans and specifications may be seen at their office, corner of Wall and Madison street. Owners reserve the right to reject any or all bids.

## RANDALL-OERLING WEDDING AUG. 25

On August 25th at Mendota, Ill., Judson E. Randall and Miss Jennie Oerling, both of this city, were united in marriage. The bride is a young lady who has been in the employ of the Riverside laundry for a long time. Her happy disposition and pleasant ways have made her a large circle of friends.

The groom is a young man engaged in farming on Magnolia avenue near the golf grounds and has numerous friends. After spending a few days in Chicago they will return to this city and make their home at the farm of the groom.

## HOW WM. SCHENKE CAME TO HIS DEATH

While at Work on the Track Picking  
Up Things He Did Not See the  
Train Come.

Clinton, Aug. 28.—Last Friday evening the engine on the 7:30 passenger train became disabled just as it reached this point. After a couple of hours work, things were adjusted properly, and the train moved on. Monday morning, as a freight train was switching on the side track, the section boss William Schenke was seen at work on the main line, apparently picking up something from the track some though it being the remains of the wreck from Friday night's repairs, with his back to the approaching vestibule train from the north due at 7 o'clock.

The noise of the switching engine interfered with his hearing it, as it came on to him. It struck him with great force, throwing him twenty feet into the ditch.

He was picked up immediately and taken to his home on Milwaukee street. Dr. Jones was summoned and Dr. Woods of Janesville telegraphed for who arrived on the 8 o'clock train. Every thing possible was done for the injured man, who seemed conscience, but unable to converse but little.

He complained of his back some and at 11 o'clock sank away. As there was no outward mark on the body to speak of it is supposed death was caused from internal hemorrhages.

Mr. Schenke was an industrious, good citizen, a faithful member of the German Lutheran church of this place. He was thirty-nine years old, and leaves a grief stricken wife and two small children.

## TRIED SAME GAME IN BOWER CITY

Evansville people are not the only ones that have suffered from a visit of a book agent offering a valuable set of books at very reduced rates. The same agent that worked the Evansville people has tried the same game on different parties in this city. He was not very successful here as many of the people have had experience with that class of sharpers before and are not easily caught the second time on the same bait.

## LABOR DAY WILL BE CELEBRATED

EXTENSIVE PREPARATIONS BY  
THE TRADES COUNCIL.

Event Will be Held Down Town This Year and Every Effort is Being Made to Furnish Amusement For the Big Crowd Expected—Committees in Charge.

Extensive preparations are being made by the Trades Council to celebrate labor day in a fitting manner.

The celebration this year will be held down town and every effort is being made to furnish amusement for the crowds that will be present in the city on that day.

The parade will take place at 1 o'clock headed by the Imperial band. After passing through the principal streets the procession will march to the court house park, where the literary exercises will take place.

There will be addresses by the mayor and several other prominent local speakers with music by the Imperial band followed by games and athletic exercises. During the afternoon four vaudeville performances will be given on the platforms erected on the principal streets. The entertainments will be equal to those given on the Fourth of July. The day's fun will wind up with a grand ball at Assembly hall.

The committees appointed to take charge of the day's entertainment are as follows:

Arrangements—George G. Paris, T. Kneeland, A. Buege.

Speakers—George G. Paris, E. B. Birmingham.

Music, Vaudeville, Printing—A. A. Pardee, G. F. Kueck, A. A. Blunt.

Games—Walter Kerry, W. E. Watts, A. C. Baker.

## RACES TOMORROW AT BOSTWICK PARK

The races at Bostwick's park tomorrow afternoon will be of interest to all admirers of harness horse racing. Four good horses are on the program and include some of the best local horses and also some from adjoining towns.

There will be considerable excitement and plenty of fun. The owners of the horses are all known here which makes the races of unusual interest. The number of starters will not be large as in some of the races that have been held here, but in this case the quality will make up for the quantity.

No races have been held in this city since the passage of the anti pool selling law and the races tomorrow afternoon should draw a good sized audience.

Easy to Attend Evansville Fair  
The train service to and from Evansville is first class, so that it will be an easy matter to attend the Evansville Fair Sept. 4, 5, 6 and 7. A very low excursion rate which is one fare and one-third, has been granted by the C. & N. W. Ry. The events scheduled by the fair management are to be extremely interesting.

## WOMAN FIGHTS A BIG MOB.

Resists Officers in Gillman Ill., and Battle Follows.

TWO DEAD, FOUR WOUNDED.

Driven Out by Fire the Alleged Murderess, Shot in the Shoulder, Continues the Combat—A Night of Terror and Crime.

Gillman, Ill., Aug. 27.—Two men killed, three wounded—two of them perhaps fatally—one woman wounded, and her residence burned, are the results of an all-night battle between a mob and Mrs. Dr. C. W. Wright, who was accused of the murder of Bessie Salter, the 16-year-old daughter of a citizen of Gillman. The dead are: John Myers, laborer, employed by Mrs. Wright; Michael Ryan, citizen, serving as deputy constable. Fatally wounded: Lawrence Ryan brother of Michael Ryan, wounded in abdomen; George Willoughby, citizen, shot through left lung; Mrs. Dr. C. W. Wright shot through right shoulder, bullet taking downward course. Seriously wounded: Peter Lauer, member of the citizens' attacking party, shot through the stomach.

Fired on Officers.

Early in the evening the first act of the tragedy was enacted, when Constable Nilstead went to the house on the outskirts of the town, occupied by Mrs. Wright, to serve on the occupant a warrant sworn out after the coroner's jury had declared her guilty of murder. A number of deputies gathered upon the street, accompanied by Constable Nilstead. Mrs. Wright barred the door, and in forcing an entrance the constables encountered unexpected opposition. They broke the outer door and entered the darkened rooms. Ryan felt his way across the first room, and was about to enter the door of the inner apartment when a shot was fired and he fell dead. The constables made a hurried exit, and formed a picket line around the building in the hope that the occupants would surrender, but without success. Finally it was determined to set fire to the building. The recent rains had so dampened the timbers that the fire would not catch, and after burning some outbuildings the posse gave up the attempt and fell back to their original plan of driving out Mrs. Wright.

Mob Surrounds House.

About 3 o'clock the family of Michael Ryan arrived. The dead man had been carried to the bushes near the house where he met his death. A mob of probably 250 people had gathered. Most of them were armed. The scenes of grief which followed the arrival of Ryan's wife and children fired the crowd with frenzy. They seized dozens of bundles of straw, saturated them with petroleum, piled them against the front and sides of the so-called hospital, and applied the torch. In a moment the place was a mass of flames. Shot after shot came from the upper windows, and George Willoughby, a local representative of the Standard oil company, fell with a bullet in his left side. The next victim was Peter Hauer, a member of the attacking party. These casualties so angered the crowd that they volleyed the house as fast as they could load their firearms. Contrary to expectations, no screams followed the progress of the flames and the mob began to think that the inmates of the burning house had been cremated.

Driven Out by Flames.

Suddenly, from a bunch of timber in the rear, several shots came in the direction of the mob. They were answered, a hundred to one, and the fire was quickly silenced. Members of the mob rushed to the timber, and in the dim light of the coming dawn found the body of John Myers, a blacksmith, who had been employed by Mrs. Wright. He was shot in a dozen places about the head and shoulders, showing that he had been lying on his face, firing at his enemies, when he met death.

Nearly lay Mrs. Wright, a ragged

hole in her right shoulder. She had been wounded while lying down in the same position as Myers.

Wounded Woman Dying.

The mob carried her down town, jeering as they went. She was taken to the council chamber and physicians set to work in an endeavor to bring her to consciousness. It is probable that she will not recover. The mob immediately dispersed. It had been reported that there were three women in the house besides Mrs. Wright, but no signs of them have been found.

Deeds Over Her Property.

Anticipating death, Mrs. Wright caused deeds for her property to be executed today conveying it to her son in California. The realty consists of five lots in Gillman and 160 acres of land near Donovan, Ill. Since her departure the excitement has cooled and turned into tender sympathy for those lingering between life and death as the result of last night's terrible experience.

Robbed by Highwaymen.

Denver, Aug. 27.—Dr. Joseph Bannett and Mrs. Flora M. Betts, both of this city, while driving in the suburbs late last night were held up by masked men, who secured over \$7,000 in cash and diamonds. Mrs. Betts was beaten into insensibility, and Dr. Bannett was very roughly handled.

Assault on Shah a Puzzle.

Paris, Aug. 28.—Saloon, who attacked the Shah of Persia, is a puzzle to the police. The question is whether he is a dangerous criminal or only a simple, excited fool.

Killed in Air Shaft.

New York, Aug. 28.—Guests of the Grand hotel, Broadway and Thirty-first streets, were shocked to learn that a man had been found dead at the bottom of the air shaft. He was H. Coulter Brinker of Newark, N. J. It is supposed that Brinker sat near the air shaft to get some air, fell asleep and lost his balance. Two years ago Brinker came east from the Imperial theater in St. Louis. He came to New York to consult a specialist regarding a cancer which had been troubling him. Brinker's father is the owner of a line of steamboats on the Mississippi.

Wants to Change His Name.

Evansville, Ind., Aug. 28.—Getting tired of being called Mr. Sweetwine and Mr. Boozie and the like, and being made the victim of puns and alleged jokes at the expense of his name, Charles A. Sauerwine has petitioned the Supreme court for the privilege of signing himself Charles A. Erwin. Mr. Sauerwine is a commercial traveler, and alleges in his petition that his name often prevents him selling a bill of goods. He says the temperance people are especially down on him.

Labor Troubles in France.

Paris, Aug. 28.—Six hundred men in Havre and Marseilles have had to stay barricaded in their houses to avoid being attacked by strikers. These men want to work, but are compelled to remain idle. Besides the laborers who are out on strikes thousands are idle because building is at a standstill. Projectors of new buildings are waiting for the close of the exposition to buy material at a low price.

Victoria to Honor American Women.

London, Aug. 28.—Authority is given for the statement that Queen Victoria is to make Lady Cora Strafford a lady-in-waiting as soon as an opportunity presents itself. Lady Strafford was formerly Mrs. Samuel G. Colgate of New York and married the earl of Strafford in December, 1898. Six months later she was widowed a second time by the killing of her husband by a railway train.

Prisoner Escapes Indiana Mob.

Marion, Ind., Aug. 28.—C. C. Bock, a merchant of Point Isabel, was brought to Marion and placed in jail, charged with criminally attacking his granddaughter, 8 years of age, and also the 4-year-old daughter of Dr. Reasoner. A mob was formed at Point Isabel to lynch Bock, but the officers eluded the mob. Bock is 65 years old.

Militia Sent Away from Akron Ohio.

Akron, Ohio, Aug. 28.—As a result of the continued peaceful conditions existing in this city, all of the state troops which had been here on duty since Thursday last have been withdrawn. With the dismissal of the soldiers the saloons were reopened, and the city has practically resumed its usual appearance.

Murdered in His Bed.

## BIG BATTLE IS RAGING.

Entire Boer Force Engaged Lord Roberts' Command Near Belfast.

London, Aug. 28.—The following dispatch was received today from Lord Roberts:

"Belfast (Sunday), Aug. 26.—Engaged the enemy the greater part of the day over a perimeter of nearly thirty miles. Little's division and two brigades of cavalry, all under Buller operated southwest of Dalmanutha, French, with two brigades of cavalry, moved northwest of Belfast, driving the enemy to Lakenby, on the Belfast-Lydenburg road. As soon as French reached Lakenby Pole-Carew advanced from Belfast in support.

"The enemy in considerable strength opposed Buller's and Pole-Carew's advance. He brought three 'long toms' and many other guns and pom-poms (quick-firing guns), into action. The firing until dark was hot and persistent. Buller hopes his casualties will not exceed forty. Pole-Carew has not yet reported.

"The Boers are making a determined stand. They have a large number of guns, the country is difficult and well suited for their tactics and is less favorable to cavalry than any we have hitherto worked over."

Immense Sale of Public Land.

Washington, D. C., Aug. 28.—The annual report of the commissioner of the general land office will show that the receipts of the office during last year were between \$1,250,000 and \$1,500,000 more than in any previous year, the returns from the sale of public lands amounting to almost \$5,000,000, the number of acres disposed of being about 13,000,000. The interior department denied permission for grazing in the Yellowstone park timber land reservation as a precaution against forest fires, and the decision will apply to all forest reserves.

Killed by Her Sweetheart.

Ashton, Neb., Aug. 28.—Miss Zellinska, 18 years old, daughter of Jacob Zellinska, living six miles from here, was shot through the heart by John Schrahl. She was out picking plums. Schrahl was hunting in the bushes, and, without waiting to find out what it was, fired, killing the girl. He has given himself up to the sheriff. Schrahl is 18 years old. The young people had been lovers. Whether they had quarreled is not known.

Say Anarchists Are on Warpath.

Vienna, Aug. 28.—The Politische Correspondenz is authority for the statement that the French government intends to sound other nations regarding more stringent measures against anarchists. The Italian government has issued a statement to the effect that twenty anarchists have left the United States to assassinate European sovereigns. The Hungarian government has instituted a search for a number of anarchists.

Wheat Yield Much Reduced.

Tacoma, Wash., Aug. 28.—As returns come in from the thrashers in the grain belt of eastern Washington they show a reduced yield of wheat. Advices from men who are in close touch with the wheat trade show that from present indications the crop from the state will not be above 18,000,000 or 20,000,000 bushels. Earlier estimates have been for 30,000,000 bushels.

Heat Reaches 105 in New York.

New York, Aug. 28.—With a maximum street temperature of 105 degrees, with two deaths and many prostrations from the heat, the hot wave which has been oppressing the city for the last three days has attained its highest point. From an almost cloudless sky the blazing sun poured its rays upon the city.

Family Quarrel Ends Fatally.

College Grove, Tenn., Aug. 28.—Richard Drumwright, aged 55, was abusing and threatening to beat his father, aged 80, when James Drumwright, Richard's son, aged 32, interfered. Richard endeavored to strike James with a heavy stick, when James shot and killed him with a revolver.

Denver's Population 133,859.

Washington, Aug. 28.—The population of Denver, Colo., as just announced by the census bureau, is 133,859, against 106,713 in 1890. This is an increase of 27,146 or 25.44 per cent.

## NOTICE TO CONTRACTORS.

STREET IMPROVEMENT.  
Office of Street Assessment Committee,  
City of Janesville, Wis., July 31, 1900.

Sealed proposals will be received at this office until the 30th day of August, 1900, at two o'clock p. m., for furnishing all material and doing all the work necessary and required to improve the following named streets, in the city of Janesville, Wisconsin, according to the respective specifications, profiles, plans and details thereof on file in the office of the City Clerk of said city, for the inspection of bidders, to-wit:

That portion of Court street which extends from the easterly side of Court street bridge to the easterly side of Harrison street, being about 2400 lineal feet; of Clark street which extends from the easterly side of South Main street to the westerly side of Glen Elia street, being about 812 lineal feet; of Pleasant street which extends from the easterly side of High street to the westerly side of Harrison street, being about 924 lineal feet; and that portion of Dodge street which extends from the easterly side of High street to the westerly side of South River street, being about 924 lineal feet; all to be graded to a sub-grade, and surfaced with brick and macadam, together with curbing and gutters, according to the specifications separately prepared for each of said streets.

Work shall be commenced on Pleasant and Dodge streets on or before the 6th day of September, 1900, and the whole work shall be completed on or before the 1st day of November, 1900; Court and Clark streets on or before the 25th day of September, 1900, and the whole work shall be completed on or before the 1st day of December, 1900; failing in which the contractor shall pay to the city of Janesville, as liquidated damages, the sum of twenty-five dollars per day for each and every day's delay in completing said work.

Directions to Bidders.

Each bidder must accompany his bid with a contract and bond, with not less than two sureties, who shall be free holders of the state of Wisconsin, and shall justify as to their responsibility as their sureties, and shall certify that they are worth in the aggregate at least the amount of the entire contract price in property not by law exempt from execution. Surety companies approved by the Street Assessment Committee will be accepted in lieu of personal sureties.

Said contract and bond, with sureties, must be completely executed on the part of the contractor, with the exception of the signature on the part of the city.

It is a POSITIVE REQUIREMENT OF THE CHARTER AND MUST BE COMPLIED WITH. Bids failing to comply with the above requirements will not be considered.

All bids must be submitted to do the work according to the specifications, profiles, plans and details for each street; stating therein prices respectively per square yard of brick pavement; per square yard of macadam pavement; per lineal foot for the lineal foot for furnishing stone curbing in place; per lineal foot for furnishing combination curbing and gutter in place; per lineal foot for furnishing concrete curbing in place; and per lineal foot for resetting curbing, so far as the same are applicable to said streets, under said specifications, profiles and plans.

All bids for work and material on each of said streets will be canvassed separately and considered in the aggregate based on the estimated quantities named in the specifications and awarded as separate contracts for each of said streets. All bids and the accompanying contract and bond must be written on the blanks prepared by the undersigned for the purpose, and prices shown in writing, and in figures. All bonds must have attached thereto internal revenue stamps to the amount of fifty cents.

All bids should be marked on the envelope, "Street Assessment Committee," with the name of the street marked thereon, on which such bids are made, and filed in the office of the Street Assessment Committee in the City Clerk's office, in said city.

N.B.—Blanks for proposals and blank contract and bond for each street will be furnished on application to the city clerk.

The bids, when the lowest ones, will be decided by the Street Assessment Committee.

The Street Assessment Committee reserves the right to reject any and all bids.

## NEW MATERIAL FOR WAR

Description of Devices For Use on Military Campaigns.

## A PHOTO-STEREO FIELDGLASS.

Valuable Invention For a Commander as Well as an Officer on Reconnaissance—Device to Unset Small Arm Projectiles—Tricycle For Carrying an Ordinary Fieldpiece.

A well known optician of Berlin, Mr. C. P. Goetz, has just devised what will prove of great value to the military commander, as well as to the officer on reconnaissance, a fieldglass which also serves as a camera, says the New York Sun. The fieldglass magnifies three and one-half times and the photographic camera is arranged for simple or stereoscopic work, and, for time or instantaneous exposure, furnishing a photograph about two inches square. The whole looks like an ordinary binocular fieldglass, the camera attachment being scarcely noticeable—in fact, the telescopic tubes serve as the cameras.

The object glasses of the fieldglass are set in a plate, which works on hinges, opening and closing like the cover of a fieldglass case. When this cover is opened the camera is ready for use, and plates can be inserted; then, closing the cover, pulling out the shutter, and pressing a button between the two object glasses will give an instantaneous picture. If both tubes are covered with plates a stereoscopic photograph is obtained, but if one is covered with an opaque pane of glass simple photographs result. The instrument can be set to five different distances, 1, 2, 4, and 6 meters, and the infinity mark gives the setting for 7 meters and all greater distances.

The photograph is so clear and sharp in outline that enlargements can be made up to 7 by 9 inches. Enlarging apparatus is furnished with the instrument. This instrument, including 24 plate holders and a case for the same, costs \$75. In reconnaissance work it will prove of great value in furnishing photographic views of particular points in the field, such as obstacles, artillery positions, important objective points, parts of fortifications, etc.

It is a well known fact that the long projectiles of modern small arms (more than four times as long as they are thick) rotate about their longer axes, and so pass through the air point to the front. If by any means the point can be made to turn aside quickly the projectile will turn over, and its velocity and penetrating power—in fact, its action in every respect—will thereby be greatly diminished and rapidly destroyed.

On the German firing ground for testing small arms at Halessee near Berlin, experiments have been conducted for some months to accomplish this result, and have proved so successful that the device has been patented in all the principal military states. The discoverer is Adolf Leven of Cologne. His device consists in placing in front of the target a thin sheet iron plate so filled with round holes (like a sieve) that a projectile can rarely strike simply and directly either a solid surface or a hole, but generally touches the sheet from one side of its point, the other side entering a hole, so that the point is deflected and the projectile turned over.

The experiments were conducted with the infantry arm under high velocities (728 meter seconds) at comparatively short distances (10 meters), the sieve like plates having a thickness of about .08 inch. Clay plates placed behind the upsetting device showed that the bullet was invariably turned over, and proved that in all cases the projectile lost much of its penetrating power. Since the experiments were conducted with high striking velocities (700 meters), it is certain that in the actual case in war, where the distances will be far greater and the striking velocity consequently much less, the projectiles will be turned over with greater ease. The distance behind the upsetting device required to turn over the projectile was found to be very short; in fact five inches was sufficient.

The advantage of this service, applied to the protection of infantry, lies in the fact that by its use the steel plates for protecting infantry from small arm fire, as well as other covering material, may be considerably reduced in thickness. The inventor also hopes to apply a similar service (of greater thickness of material, of course) to armor piercing projectiles.

The use of the tricycle for carrying Maxim machine guns has suggested the idea of conveying rapidly over the field from point to point an ordinary fieldpiece by similar means. The Norwegian government has had such a tricycle constructed at Aik-la-Chapelle, which has recently been delivered for trial.

The gun is mounted on a light steel framework like its own carriage, with two rubber tired wheels and a long trail (on which the ammunition chest is carried). The latter is attached (as in the fieldpiece) to the tricycle as a limber, the latter, besides the saddle for the driver, having a seat for the men, the front wheel serving, as usual, for steering, one man working its pedals. In the preliminary trial at Aik-la-Chapelle the apparatus easily carried the gun and two men up the Kanisberg (a mile long), a hill which usually forces cyclists to take a diagonal course in order to mount it.

## BOYS FOR HOUSE SERVANTS.

Experiment Being Tried in Milwaukee. It is Said, With Success.

The servant girl question is a burning issue in Milwaukee. Housekeepers are in despair. Many of them cannot get servants of any kind, and others get such poor ones that they wish they had none at all. A new movement has been started there within a short time by the management of certain charitable employment agencies who make a specialty of trying to find work for all sorts and conditions of people.

During the last few weeks several housekeepers have taken on trial boys ranging in age from 14 to 18 and are training them to take the place in the household which has ordinarily been filled by the servant girl, says the Chicago Chronicle. In two cases which have come under immediate observation the results have been reported to be exceedingly satisfactory. The boys do not learn quite as readily as do the girls, but they have better memories and seldom have to be told a second time what is required of them. They do not ask for the thousand and one privileges which the modern servant girl now demands as her right. They work for less wages and on the whole make much more satisfactory servants, and it may be that the boy will take the place in the household that the girl has crowded him out of in the factory.

As the servant girls become more scarce and harder to get their demands for pay and privileges increase in exactly the same ratio as the difficulty in getting them. A Prospect avenue housekeeper had a servant apply for a position, and she seemed so satisfactory that the lady had already begun to congratulate herself upon securing a treasure. Satisfactory terms had been agreed upon and a mutual agreement reached as to duties and privileges.

"By the way," said the new girl, "I am taking music lessons now, and I shall expect to have the privilege of using the piano for practice two hours each day."

"Indeed you cannot. My piano is for the use of myself and my guests. I do not care to have my servants use it. You will not suit me. You can go." And the lady who told the story, although she has repeated it a number of times, cannot yet do so without expressing great indignation at what she deemed to be a preposterous request.

## PRAIRIE CHICKENS IN PLENTY

Excellent Shooting Promised This Year Through Entire Northwest.

The opening of the shooting season in Minnesota and the Dakotas promises more sport than has been known for many years, says the St. Paul correspondent of the New York Sun. The prairies are teeming with chickens and quail. The dry spring enabled the chickens to hatch without loss, and in many parts of the country two broods are found. All over Minnesota where chickens are to be found come reports of thousands of birds to be found near the wheatfields in the long prairie grass.

Prairie chickens are more than half grown, and a better crop of the feathered tribe has not been raised in the northwest for many years. Instead of dying out, as was predicted with the settlement of the country, the prairie fowl seems to have adapted itself to the agricultural districts and to have begun an increase that promises to overshadow the former times when they were forced to subsist on the wild berries and rice. Grain is much more to their liking, and they are now to be found wherever wheat and corn are raised and in the winter months in the timbers adjacent to the fields.

Shooting will be excellent, and already the sportsman is getting ready for his annual raid on the feeding grounds. The railroads are now advertising the chicken shooting opportunities of the northwest as an inducement for sportsmen to travel over their lines, but it may be said truly that this year hunters will find good shooting everywhere. The season opens in Minnesota on Sept. 1, in South Dakota on Aug. 15 and in North Dakota and Wisconsin on Sept. 1.

Plover and snipe shooting, which by many is regarded as the finest sport of all the wild fowl hunting, is already under way, and many birds have found their way to market. The English curlew, the jack snipe and the reedbird are to be found on the prairies in the neighborhood of swamps or ponds, and the former are much sought by hunters owing to their scarcity and to the fact that they only go in pairs or singly. Duck hunting promises unusual sport this fall, as the dry season will concentrate the birds near the wild rice beds, where they may be found by hundreds and thousands.

**Where Less Counts.**  
Hatless girls, horseless carriages, coatless men. What next? Less seems, according to the Erie Times, to be getting more.

**The Shirt Waist Man.**  
When the sun is shining downward  
And his hot skin all get out,  
Then it keeps you guessing daily  
How you ought to go about.  
The latest great improvement,  
Built upon the iceberg plan,  
Is the coming of a creature  
Called "the shirt waist man."

He strolls along serenely,  
While all others curse the heat;  
He never wears a coat or vest,  
And looks so cool and neat.  
Most everybody wonders  
Why they ever used a fan  
Since the coming of a creature  
Called "the shirt waist man."

But the general public swelters,  
As a rule of etiquette,  
And many men will suffer  
Just to be a social pet.

Has removed an awful ban  
By the coming of a creature  
Called "the shirt waist man."

## STEVENSON NAMED.

Populist National Committee Nominates Him for Vice President.

Chicago, Aug. 28.—After five hours' discussion the populist national committee nominated Adlai E. Stevenson for vice-president in place of Charles S. Towne, resigned. Ninety-five of the 124 members of the committee were present in person or by proxy. Gen. James L. Weaver of Iowa made a motion that Adlai E. Stevenson, the candidate for vice-president on the democratic national ticket, be named for vice-president to succeed Mr. Towne. A substitute motion was made that "we do now proceed to nominate a populist for vice-president." Every member of the committee made a speech. Senator Butler, the chairman, made the principal argument for the substitute. Senator Pettigrew and George F. Washburne of Massachusetts spoke in favor of the substitute.

The only test vote was taken on the adoption of the substitute, 24 votes being cast for it and 71 against. The motion to nominate Stevenson was then put and carried, with less than a dozen negative votes. A motion was adopted for the appointment of a committee to notify Mr. Stevenson of his nomination. The committee will be named today. The candidate will probably be notified at his home in Bloomington in the near future.

A committee consisting of Chairman Butler, Vice Chairman J. H. Edmisten, Secretary J. A. Edgerton, George F. Washburne, and Senator R. F. Pettigrew, to prepare an address to the Populists of the country on the result of the committee's action, was appointed.

Glasgow, Aug. 28.—Three persons—father, mother and child—who have been certified to be suffering from bubonic plague, have been placed under the care of the medical authorities here.

If the man does not stop the cough the cough stops the man; stops his appetite, his sleep, his pleasure and his work. So called "cough remedies" sometimes relieve but they don't go deep enough to cure. Dr. Pierce's Golden Medical Discovery cures coughs and diseases of the respiratory organs perfectly and permanently. It stops the cough. It heals the lungs, stops the hemorrhage, if the lungs are bleeding, and by purifying the blood and increasing the action of the blood-making glands enriches every organ with the good blood which alone will make a good body.

"My husband had been coughing for years and people frankly told me that he would go into consumption," writes Mrs. John Shireman, of No. 265 25th Place, Chicago, Ill. "He had such terrible coughing spells, we not only grew much alarmed, but looked for the bursting of a blood vessel or a hemorrhage at almost any time. After three days' coughing he was too weak to cross the room. The doctor did him no good. I stated the case to a druggist, who handed me a bottle of Dr. Pierce's Golden Medical Discovery. My husband's recovery was remarkable. In three days after he began using Dr. Pierce's Golden Medical Discovery he was up and around, and in two more days he went to work. Two bottles cured him."

Dr. Pierce's Pleasant Pellets cure biliousness. They produce permanent benefit and do not re-act on the system. One is a gentle laxative, two a cathartic dose.

## PYTHIANS SHOW A VERY BIG GROWTH

REPORTS AN INCREASE OF 24,000  
SINCE DEC. 31, 1899.

The Total Membership Now is 515,000  
Bringing the Order Up to Third in  
Rank of Numbers—Prospects For  
Fetters' Election Thought to be  
Good.

Detroit, Mich., Aug. 28.—The Knights  
of Pythias of the world have come to  
Detroit this week to hail the most pros-  
perous year in the history of the order.  
Thomas G. Sample of Allegheny, Pa.,  
supreme chancellor, in his report to the  
order announces a membership of 515,  
000, an increase of 44,000 since Decem-  
ber 31, 1898, and 24,000 since December  
31, 1899. The order now stands third  
in numbers with the fraternal organiza-  
tions of the world. The increase was  
in the nature of an astounder for even  
the most enthusiastic Pythians.

Major General James R. Carnahan  
assumed formal command of the Tenth  
biennial encampment of the Uniformed  
Rank Knights of Pythias at 5:30 o'clock  
last evening in the presence of the sev-  
eral divisions of his command and a  
throng of spectators. He said:

"When humanity needed a defender  
we have volunteered for that defense and  
we have stood for the grand doctrine of  
Americanism. No mongrel type of  
Americanism, however; no German-  
Americanism, no Irish-Americanism or  
anything of that kind but just Ameri-  
canism."

The principal formal events last eve-  
ning were receptions in the Masonic  
temple held by the supreme representa-  
tives and officers of the Rathbone and  
Pythian Sisters. The downtown illumi-  
nations showed over a great throng of  
Pythian visitors and ladies.

The dramatic order Knights of Khor-  
assan held a meeting exemplified a new  
ritual and elected officers. John A.  
Hinsey of Chicago was elected imperial  
prince.

Sessions of the supreme lodge began  
this morning. A very strong sentiment  
is developing to continue the custom of  
rotation in office and elect vice-chancel-  
lor Fetters, of Wisconsin chief officer.  
The spectacular feature of today was the  
grand parade.

## PROMISE STATEHOOD TO THE FILIPINOS

Aguinaldo's London Representative Re-  
ceives a Message From the Island  
Which He Discredits.

London, Aug. 28.—[Special Cable-  
gram]—Dr. Juarno, Aguinaldo's repre-  
sentative here, today received a cable-  
gram stating that President Taft of the  
Philippine commission and Gen. Mac  
Arthur had received Senor Paterno,  
formerly a member of Aguinaldo's cabi-  
net and assured him that they had been  
authorized by President McKinley to  
issue on September 1, a proclamation in-  
stituting civil government in the Philip-  
pines and promising reforms which will  
ultimately result in the bestowal of  
statehood upon the archipelago. Juarno  
discredits the message.

## FITZ WILL GO OUT WITH HORTON LAW

Announces That He is Through With  
the Pugilistic Ring—Won't Claim  
Championship.

New York, Aug. 28.—Robert Fitzsim-  
mons last night announced his retire-  
ment from the pugilistic ring. He made  
an ineffectual attempt to get on a match  
for the heavyweight championship with  
James J. Jeffries to take place before the  
Horton law expires at midnight next  
Friday and last night issued the follow-  
ing statement:

"I am through with fighting. I will  
retire from the ring and will not claim  
the championship from Jeffries. I am  
ready, and on edge to meet him next  
Friday night as his manager suggested  
ten days ago, but as he claims he is in  
no condition to fight on that night, I am  
through with him and with the ring.  
Henceforth there will be one man less  
in the heavyweight division, for I will  
go out with the Horton law."

**Charlotte Bronte's Memory.**  
Charlotte Bronte's widow, Rev.  
Arthur B. Nichols, is now over 80  
years of age and spends much of his  
time in attending to his land business  
at Banagher, Ireland. Though mar-  
ried again, he always observes the an-  
niversaries of his first wife's birth and  
death.

**Chuchutts and Trolleyitis.**  
The mania for riding on railway  
trains is now known as chuchutts. A  
physician in this city has invented a  
word to describe a patient whose man-  
ia is riding upon the trolley cars.  
He calls him a trolleyitis, which is a very  
expressive term. The doctor says that  
trolleyitis is becoming very prevalent  
in Chicago.

**Annual Payment of a Rose.**  
The annual payment of a rose by a  
church in Pennsylvania as rent, a cus-  
tom surviving from colonial days early  
in the last century, calls attention  
to strange rents in England. The Duke  
of Marlborough gives a banner to the  
queen every year on August 2, the  
Blenheim anniversary, as rent for the  
manor of Woodstock. The Duke of  
Wellington pays the same sort of rent  
for Strathfieldsaye, presented to the  
iron duke for his victory at Waterloo.  
In Yorkshire hundreds of acres bring

in no other rent save roses. Formerly  
land in Norfolk was held by giving the  
king each year twenty-four pasties of  
fresh herrings. In other places a  
cock, a hen, a side of bacon, or other  
article is given instead of money.

## THE GREAT G. A. R. PARADE.

Marching Veterans Receive Gener-

tion was headed by Philney's United  
States Band with sixty pieces. Then  
came Lafayette Post of New York on  
the right line, with Commander Allan  
C. Bakewell with 100 men.

Next was the staff of honor, com-  
posed of one-armed veterans, General  
Daniel E. Sickles, General Bradley  
Winslow and Captain B. F. Nourse.  
Twelve heralds in costume blowing  
French trumpets announced the com-  
ing of the pageant of patriotism.

In this display first came fifty tattered  
and torn battle flags which were  
carried by New York during the great  
four years' fight. These, all closely  
clinging to their oak and ash poles,  
protected from the breeze, were car-  
ried by members of Columbia Post,  
Chicago.

DAN SICKLES.

The formation was in four platoons  
in charge of Commander M. W. Dimey.  
The regimental flags and escort was  
guarded by a hollow square of Colum-  
bia Post men.

At 4 p. m. the council of administra-  
tion of the ladies' G. A. R. met at the  
Palmer House.

The various banks were closed to-  
day and the office of the city treasur-  
er was the only department open at  
the city hall.

William Jennings Bryan, owing to  
President McKinley's inability to at-  
tend the encampment, decided not to  
be a guest of the G. A. R.

Two deaths and a number of acci-  
dents were reported by the police.

**SHAW TO THE NAVAL VETERANS**  
Dedication of Arch Part of Exercises in  
the Naval Parade

Chicago, Aug. 28.—As a part of the  
exercises during the naval parade yes-  
terday afternoon, Gen. Shaw delivered  
an eloquent oration at the arch dedica-  
tion. He said in part:

"Naval Veterans, Ladies and Gentle-  
men: We meet to fittingly honor the  
completion of this naval arch and to  
put on record proper acknowledgments  
of the spirit back of its erection. The  
arch is one of the oldest forms of mon-  
umental art and its glories of design  
have come down to us through many  
centuries. The old world is specially  
rich in those famous historic memorials  
of other times and other scenes, in  
commemorating the events of great  
deeds and great men. The sentiment  
of appreciation of heroic services in a  
nation's behalf have thus been fixed  
in the minds of proud people, thus  
teaching history in a way to command  
the undying admiration of the world.  
Our young nation has yet to rear a  
worthy memorial monument of this  
sort—to stand as a real rival to old-  
world monuments—for we have won  
victories on land and sea of matchless  
glory within the narrow cycle of our  
national life. This splendid creation  
is a thing of beauty and deeply stirs  
the emotions of patriotism as the ar-  
tist's vision comes into view, even in  
its known frail construction for the  
hour."

Notable persons were on hand in the  
reviewing stand on Michigan avenue  
opposite the Logan monument. They  
included Gov. Tanner, Mayor Harrison,  
Commodore George L. Seavey, com-  
mander in chief of the Naval Veter-  
ans' association; National Commander  
James Atwell of the National Association  
of Union ex-Prisoners of War; Col.  
Asa W. Jones, commander in chief  
of the Sons of Veterans; Commander  
in Chief Albert D. Shaw of the G. A.  
R. and other distinguished guests, in-  
cluding the Duke d'Arcos, Spanish min-  
ister to the United States.

Though 2,000 police were scattered  
along the line of march the crowds  
were just like all other crowds, and  
consequently some difficulty was ex-  
perienced in maintaining order.

**Veterans of Spanish War in Line.**

But there were others in that line  
besides the veterans of the civil war.  
Men who fought with Dewey and  
Schley walked elbow to elbow almost  
with those who had followed in wake  
of a flag that had waved in earlier  
years, but a flag that was no different  
in worth and looks from that of the  
present. And, besides the members of  
the National Association of ex-Prison-  
ers of War, the naval reserves in their  
finest and gayest garb were there. And  
so were brigades of the national guard  
and the boys' detachment. So in this  
way were the old, the middle-aged and  
the young, all shoulder to shoulder, all  
bowing before the same emblem, and  
all of a single mind and step at places  
where patriotism reigns. It was a pic-  
ture of three generations in a frame-  
work of red, white and blue and rest-  
ing on a background that knows no  
shaking—the background of a mighty  
nation.
